## **Standards and Advisory Tables | US EPA**

NSDWRs (or secondary standards) are non-enforceable guidelines regulating contaminants that may cause cosmetic effects (such as skin or tooth discoloration) or aesthetic effects (such as taste, odor, or color) in drinking water. EPA recommends secondary standards to water systems but

# Online Library Epa Drinking Water Guidelines

does not require  
systems to comply with  
the standard.

Drinking Water  
Contaminants -  
Standards and  
Regulations. EPA  
identifies contaminants  
to regulate in drinking  
water to protect public  
health. The Agency  
sets regulatory limits  
for the amounts of  
certain contaminants in  
water provided by  
public water systems.  
These contaminant  
standards are required

# Online Library Epa Drinking Water Guidelines

by the Safe Drinking Water Act (SDWA) .  
EPA works with states, tribes, and many other partners to implement these SDWA provisions.
