Fifty Degrees Below Science In

Here in the real world, the disaster scenario from book 1 has already come to pass, albeit in New Orleans rather than in Washington [Forty Signs of Rain]. In book 2 [Fifty Degrees Below] the lead characters are government scientists and minority party politicians who are clearly disturbed by America's self-destructive response to global warming.

Amazon.com: Fifty Degrees Below (Science in the Capital ...

Fifty Degrees Below (2005) is the second book in the hard science fiction Science in the Capital trilogy by Kim Stanley Robinson. It directly follows the events of Forty Signs of Rain, with a greater focus on character Frank Vanderwal, and his decision to remain at the National Science Foundation, following the earlier novel's superstorm and devastating flood of Washington D.C.

Fifty Degrees Below (Science in the Capital Book 2 ...

Set in our nation's capital, here is a chillingly realistic tale of people caught in the collision of science, technology, and the consequences of global warming. When the storm got bad, Frank Vanderwal was in his office at the National Science Foundation. When it was over, large chunks of San Diego had eroded into the sea, and D.C. was underwater.
