The Franklin Engine Company was an American manufacturer of aircraft engines. Its designs were used primarily in the civilian market, both in fixed wing and helicopter designs. It was briefly directed towards automobile engines as part of the Tucker Car Corporation, returning to aviation when that company failed.

Is the 165 Franklin the original engine for the airplane? If so, I think you have only two real choices. 1.) Overhaul the original engine. Minimal cost out of pocket, you know what you will get, and potential buyers will be buying a stock bird. 2.) If you want to upgrade, bite the bullet and go all the way to the Lyco
